

SPA

Fully programmable aerosol air freshener

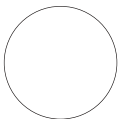

The SPA is a fully programmable aerosol air freshener designed to satisfy the needs of both service professional and end user. The unit features unrestricted personalised settings with 7, 14, 20, 30 minutes, 12 or 24 and 5 or 7 day options available. Details such as the SPA's large, angled easy view LCD screen and intuitive software make programming straightforward while its unrestricted can usage range helps cut consumable costs.

The SPA aerosol air freshening system is complemented by Kennedy's Freedom in Fragrance™ range of effective EU approved air freshening fragrances. SPA uses 2 D cell batteries and is available in Kennedy's full range of attractive finishes.

Consumables

The freedom in fragrance™ range of air freshener fragrances forms an integral part of our air freshening systems. Available in aerosol and sachet format each fragrance counteracts both washroom and tobacco malodour.

Kennedy's freedom in fragrance™ air freshening fragrance range

- > All fragrances counteract both washroom and tobacco malodour
- > Patented dual action neutralising agent for advanced malodour control

- > Safe formulations approved for use under EU regulations
- > Fragrances available in aerosol and sachet format
- > Aerosols comply with 75/324/EEC & 94/1/EC, the Aerosol Directive and Amendment.
- > Aerosols are labelled to comply with the Dangerous Preparations Directive 99/45/EC as amended by 2001/60/EC
