Cartridge: CAR AFR AIR

Sachet: SAC AFR

The freedom in fragrance™ air freshening fragrances range from fresh, cool tones to fruity and floral notes. They form an integral part of our air freshening systems. Available in CFC free aerosol cans (160 ml / 5.4 oz or 3000 dose) Airplus cartridge and Slimline sachet format, each fragrance counteracts both washroom and tobacco malodour.

Benefits

End user satisfaction

- High quality, fresh, modern and attractive range of fragrances
- All fragrances counteract both washroom and tobacco malodour
- Patented dual action neutralising agent for advanced malodour control

Choice

- Fragrances available in aerosol, cartridge and sachet format for programmable and continuous air freshening dispensers

Compliance

- Aerosols comply with 75/324/EEC & 94/1/EC, the Aerosol Directive and Amendment.
- Aerosols are labelled to comply with the Control of Labelling and Packaging Directive 1272/2008

Peace of mind

- Safe formulations approved for use under EU regulations
- Kennedy's fragrances do not contain any of the following ingredients: Benzene, Formaldehyde, Toluene, Limonene, Phthalates, Naphthalene or Styrene

Hard working fragrance

The Freedom in fragrance™ range contains a highly effective patented neutralising agent

1. When a fragrance is sprayed, the neutralising agent breaks down malodour molecules in the atmosphere
2. Unpleasant odours vanish and you are left with a clean fragrance and a happy customer
